STEVEN WEINBERG

Boat

USA, c. 2005 | cast and polished optical crystal with controlled air bubbles
6¾ h × 14¼ w × 3¾ d in (17 × 36 × 10 cm)

The textured surface along the curved side was achieved with the 'glue chipped' technique, which involves etching the glass then applying animal hide glue and allowing it to dry. The drying glue exerts pressure on the surface and chips off pieces of glass in a random pattern.

Etched signature and date to edge 'Steven Weinberg 000708'.

Estimate: \$3,000–5,000

Result: \$3,500
